Projects

CADodiles — STEM Educational Arcade Game — Northeastern University, Oakland, CA
Project Manager & CAD Lead — Spring 2026
- Co-designed the dispenser in SolidWorks and AutoCAD; produced final dimensioned drawings for all laser cuts
- Fabricated and assembled the dispenser, ramps, and game boards via laser cutting, 3D printing, and hand tools
- Troubleshot the servo-driven waterwheel via 3D-printed iterations and tested rotation angles for reliable release
- Tested the final prototype with **6** groups of 5th graders against set success metrics; co-wrote the technical report
- Led a **5**-person team through a milestone, presenting design progress and incorporating feedback

Arcadium — Arcade Light Reaction Game — Northeastern University, Oakland, CA
Team Reporter — Fall 2025
- Independently built a Piano Tiles game on a Raspberry Pi Pico, handling all wiring, coding, and fabrication
- Designed its enclosure in AutoCAD; fixed tall wiring by raising the buttons and added vents for a muffled buzzer
- For the team game, designed the LCD enclosure, helped code the LEDs, and troubleshot the candy dispenser
